

Note:

The African Meteorological Society (AfMS) welcomes all professional and scientific societies in Africa that focus on meteorology and related sciences. As per constitution National Meteorological Societies will be admitted as full members and other related organizations as Associate Members.

AfMS will provide you with an opportunity to collaborate with other member societies and benefit from their experiences.

Please read the List of Activities of AfMS provided below this form.

☒ Yes

☐ No

ACTIVITIES OF THE AfMS

Although the AfMS Council will update its list of activities from time to time, the following list presents some typical activities to be undertaken by AfMS:

- Organizing scientific meetings and lecture series.
- Supporting scientific publications and research for the public welfare.
- Publishing its own Scientific Journal, when feasible.
- When circumstances allow, holding Africa-wide Conference each year or every other year in one of the member countries or through on-line means.
- Assisting in Educational Programs by holding Webinars and online Training Programs and also if feasible by developing its own training programs.
- Looking into the feasibility of Certification of professionals. If found important by member societies, it will be implemented.
- Cooperating with the National Meteorological Services of Africa and with IFMS and other Regional Meteorological Societies for the benefit of strengthening Global Weather Enterprise.
- Instituting Recognition and Awards Program for Professionals
- Promoting cooperation between Public, Private and Academic Sectors.
- Strengthening existing Meteorological Societies and creating new ones in those countries where no such society exists.
